# PARTNERS IN COACH EDUCATION

The National Coaching Certification Program is a collaborative program of the Government of Canada, provincial/territorial governments, national/provincial/territorial sport organizations, and the Coaching Association of Canada.

The programs of this organization are funded in part by Sport Canada.

## Performance Coach Performance Planning Checklist

| Date  |         |            |            |    |  |
|-------|---------|------------|------------|----|--|
| Coach |         |            | CC number: | СС |  |
|       | Surname | First Name |            |    |  |

|       | Portfolio Requirements   | Check | Date<br>(dd/mm/yyyy) |
|-------|--|-------|----------------------|
| Tasks | Task 1: Gap Analysis / Sport Profile     Identify Program benchmarks related to stage of LTAD     Complete overview of sport demands (Sport Audit)     Use gap analysis tool to identify optimal demands related to stage of LTAD     Rate athletes against sport demands     Create Training objectives based on prioritized athlete gaps  Task 2: Creating the YTP     Identify program structure and logistics (Training, Competition and other events)     Break the plan into manageable pieces (Periods, phases and meso cycles)     Plan / prioritize training emphasis for main program factors     Sequence training objectives throughout plan     Quantify plan based on training volume and intensity  Task 3: Meso and Micro Cycle Planning     Create sample meso cycle / micro cycle plan for each training block     Identify main purpose or objectives linked to YTP |       |                      |
|       | <ul> <li>Show integration of training priorities to ensure optimal recovery</li> <li>Identify how training factors may be monitored</li> </ul>   |       |                      |

#### Portfolio Marking Checklist

| Identify benchmarks for stage of LTAD  | Che    | ck    | Evidence of   | Achievement  |                    | Comments   |

Evaluators MUST NOT recommend any coach as a Certified if they observe ANY of the following behaviours, as they undermine values of Taekwondo Canada and the National Coaching Certification program.

- Any incident of disrespectful, offensive, abusive, racist or sexist comments or behaviours directed towards others, including but not limited to athletes, coaches, officials, administrators, spectators and sponsors.
- Repeated unsportsmanlike conduct such as angry outbursts or arguing.
- A single physically abusive incident with willful intent to injure.
- Activities or behaviours that interfere with a competition or with any athlete's preparation for a competition.
- Pranks, jokes or other activities that endanger the safety of others.
- Use of techniques or programs that may endanger the safety of others.
- Use or promotion of banned performance enhancing drugs or methods.
- Willfully and knowingly plagiarizing or copying work from other coaches for the purpose of providing evidence for evaluation.

If any of the above actions are observed during the observation, the coach must fail. The incident must be documented and notification sent to Taekwondo Canada. In order to be considered for re-evaluation the coach must initiate an appeal procedure as outlined in the Taekwondo Canada NCCP operations manual.

#### **Sport Audit**

#### Instructions:

- 1. Rate the importance of each factor for promoting performance in your sport. Use the rating scale for each factor to ensure contribution of a particular performance indicator. If a factor is not applicable to your sport leave the ranking space blank.
- 2. Rate the gap between current programming and the ideal condition for each overall indicator. Optimal suggests that current program is ideal for sport, whereas, needs enhancement, or area for attention, suggests a disparity between current programming and ideal performance.

The charts below will calculate a rough estimate of for the contribution of each performance indicator for your program.

| The charts be | iUW WI        | ll calculate a rough estim                     | Importance ir                    | euch perjorr |     | Current Programming    |

#### Objectives of Periods and Phases of Seasonal Sport Programs

| Period           | Phase  | Objectives and Priorities   | Training Methods   |
|------------------|--|---|--|
|                  | General Preparation<br>Phase<br>Recommended<br>length: 6 to 8 weeks,<br>or more  | ☐ General development of physical, motor, and mental athletic abilities ☐ Acquisition of new technical abilities and skills ☐ Consolidation of already acquired technical and tactical abilities ☐ Progressive increase in the quantity of work done during practices ☐ Improvement of athletes' weak points ☐ Development of interpersonal bonds within the group ☐ Establishment of general objectives related to athletic development  | □ Large proportion of general activities and exercises; small proportion of specific and competition activities and exercises □ Training and practice conditions fairly stable and predictable, or controlled by the coach □ Average intensity lower than that of later phases                               |
| Prepar-<br>ation | Specific Preparation<br>Phase<br>Recommended<br>length: 3 to 5 weeks,<br>or more | <ul> <li>□ Progressive development of physical conditioning adapted to the sport</li> <li>□ Specific development of the primary physical, motor, and mental athletic abilities required in the sport</li> <li>□ Improvement of athletes' weak points</li> <li>□ Consolidation of already acquired technical and tactical abilities</li> <li>□ Acquisition of new tactical abilities and knowledge</li> <li>□ Progressive increase in the quantity of work done during practices</li> <li>□ Progressive increase in activity intensity, approaching competition-level intensity toward the end of this phase</li> </ul>  | ☐ Greater proportion of specific or competition exercises, decrease in the proportion of general activities and exercises ☐ More specific and less predictable training and practice conditions; conditions controlled by the coach more frequent than random conditions                                     |
|                  | Pre-Competition Phase Recommended length: 2 to 3 weeks, or more                  | <ul> <li>□ Preparation of athletes for future competitions</li> <li>□ Maintenance of physical, motor, and mental athletic abilities of low or moderate importance in the sport</li> <li>□ Specific development of the primary physical, motor, and mental athletic abilities required in the sport</li> <li>□ Consolidation of already acquired technical and tactical abilities</li> <li>□ Increase in activity intensity, to be at competition-level intensity toward the end of the phase</li> <li>□ Stabilization of the quantity of work done during practices</li> <li>□ Identification of more specific performance objectives</li> <li>□ Stress management and emotional control when outcome is important</li> <li>□ Cooperation within the group</li> <li>□ First selection activities (if applicable)</li> </ul> | □ Large proportion of specific or competition exercises, and small proportion of general activities and exercises □ Specific training and practice conditions □ Conditions controlled by the coach more frequent than random conditions □ Participation in a few preparatory and "non-official" competitions |

| Period           | Phase Objectives and Priorities                  |  | Training Methods   |  |
|------------------|--|--|--|--|
| Compet-<br>ition | Regular Competition<br>Phase<br>Length: variable | <ul> <li>□ Validation and confirmation of learning and progress made by athletes during training</li> <li>□ Achievement of performance goals</li> <li>□ Maintenance of the primary physical, motor, and mental athletic abilities required in the sport</li> <li>□ Consolidation of already acquired technical and tactical abilities; maintenance of recently acquired ones</li> <li>□ Stabilization of or decrease in the quantity of work done during practices and maintenance of an intensity similar to that found in competition</li> <li>□ Stress management and emotional control when outcome is important</li> <li>□ Acquisition/implementation of game/combat/race plan</li> <li>□ Cooperation within the group</li> <li>□ Other selection events (if applicable)</li> </ul> | <ul> <li>□ Very large proportion of specific or competition exercises, and very small proportion of general activities and exercises, unless the latter are required to correct persistent shortcomings</li> <li>□ Specific training and practice conditions similar to those of competition; conditions controlled by the coach less frequent than random conditions likely to be encountered in major competitions</li> <li>□ Use of specific competition situations or of less important competitions as difficult practices or as tests in which athletes experiment; include psychological stress during training only when athletes have a high success rate in the execution of technical skills</li> </ul> |  |
|                  | Major Competition<br>Phase                       | <ul> <li>□ Implementation of game/combat/race plan with the aim of achieving a performance in competition</li> <li>□ Achievement of performance goals when the stakes or competition level are higher</li> <li>□ Stress management and emotional control when outcome is very important</li> <li>□ Recovery from fatigue and stress due to participation in regular and major competitions</li> <li>□ Rather than trying to increase the length of practices, make sure that their frequency is maintained and the intensity remains high</li> <li>□ High success rate when performing actions in training (precision and consistency); high cooperation within the group</li> <li>□ Final selections (if applicable)</li> </ul>   | <ul> <li>□ Very large proportion of specific exercises</li> <li>□ Random conditions more frequent than conditions controlled by the coach</li> <li>□ Exercises and activities intended to refine preparation</li> <li>□ Insertion of frequent breaks in practices so as to avoid fatigue and maintain a high degree of intensity</li> </ul>  |  |

| Period     | Phase                           | Objectives and Priorities  | Training Methods   |
|------------|---------------------------------|--|--|
| Transition | Length: variable (2 to 8 weeks) | <ul> <li>□ Recovery and regeneration</li> <li>□ Healing of injuries sustained during the Competition Period</li> <li>□ Decrease in the length, frequency, and intensity of sport activities</li> </ul> | <ul> <li>□ Active rest</li> <li>□ Very large proportion of general activities and exercises</li> <li>□ Participation in activities other than organized competitive activities</li> <li>□ Participation in sports with different physical and motor requirements, with or without competition, without stress</li> </ul> |

| Below<br>Standard   | <ul> <li>Have no clear point of reference with regard to the physical, technical, tactical, mental, and cognitive demands of SPORT at the elite level</li> <li>Do not identify critical normative data pertaining to key performance factors</li> <li>Do not identify the number of years that are necessary to develop a competitive athlete at the elite level, and/or the volume and intensity of training that are required at critical stages of athlete development</li> </ul>   |  |  |

| Outcome: Design a Sport Program |   |  |  |
|---------------------------------|---|--|--|
| Criterion: Outl                 | Criterion: Outline a program structure based on training and competition opportunities  |  |  |
| Achievement                     | Evidence: Add Sport-specific Examples   |  |  |
|                                 | ☐ Meet "Above Standard" and:  |  |  |
| Highly<br>Effective             | <ul> <li>Identify specific remedial and/or other corrective measures that are necessary to the structure of the program in order to (1) address specific weaknesses identified in individual athletes as a result of evaluations or other performance analyses and (2) ensure adequate progression in a way that is consistent with SPORT's long-term athlete development framework and/or generic NCCP guidelines and/or Canadian Sport for Life principles</li> <li>Yearly program plan is used as a model for other coaches of the Competition – Development context</li> </ul>  |  |  |
|                                 | ☐ Meet "Standard for Core Certification" and:   |  |  |
| Above<br>Standard               | <ul> <li>Present yearly planning calendar that identifies major program orientations (goals and objectives) related to skill development, physical conditioning, athlete performance, and general stages of athlete development for each period of the program, consistent with SPORT's long-term athlete development framework and/or generic NCCP guidelines and/or Canadian Sport for Life principles</li> <li>Identify relative importance of competition in Yearly Training Plan</li> <li>Determine if yearly program should be based on a single or double periodization approach, and identifies Periods/Phases as necessary</li> <li>If the yearly program should be based on a double periodization approach, Periods/Phases are identified as necessary throughout the program, and are of an appropriate duration</li> <li>Factor in the results of evaluation or other performance analysis to identify training and competition needs for the program</li> </ul> |  |  |
|                                 | On a yearly planning calendar:  |  |  |
| NCCP<br>Standard for            | <ul> <li>Present logistical information</li> <li>Identify competition schedule and number of competitions during the program, as well as other key events (training, evaluation, etc.)</li> </ul>   |  |  |
| Core<br>Certification           | <ul> <li>Correctly calculate the length of the season given breaks and other logistics, and the total number of competition days in the Yearly Training Plan</li> </ul>   |  |  |
|                                 | □ Identify length of each period of the program (Preparation, Competition, and Transition) and break down each into Phases (GPP; SPP; PCP; CP; Transition)  |  |  |
|                                 | <ul> <li>Identify number, duration, and frequency of training sessions in each period of the program<br/>(Preparation, Competition, Transition).</li> </ul>   |  |  |
| Below<br>Standard               | <ul> <li>Only present basic athlete information and seasonal logistics (practices and competitions)</li> <li>Do not present a planning calendar of logistical information</li> </ul>  |  |  |

| Outcome: Design a Sport Program                                  |   |  |  |
|--|---|--|--|
| Criterion: Integrate yearly training priorities into own program |   |  |  |
| Achievement  | Evidence: Add Sport-specific Examples   |  |  |
| Highly<br>Effective  | <ul> <li>Meet "Above Standard" and:</li> <li>Integrate sport-specific components, physical components as well as specific mental strategies into program design (e.g., visualization, goal setting, etc.)</li> <li>Factor in critical programming decisions that have to be made to the Yearly Training Plan in order to address/correct specific performance factors, and re-adjusts training priorities and objectives in a way that (1) reflects the anticipated time required to induce the desired training effects and (2) takes into account the anticipated effects of such changes on other performance factors</li> <li>The yearly program developed is a model for the Competition – Development context in the sport</li> </ul> |  |  |
|  | ☐ Meet "Standard for Core Certification" and:   |  |  |
| Above<br>Standard  | <ul> <li>Identify adjustments to NCCP or NSO template to better reflect own program situation, while remaining consistent with NCCP or NSO long-term athlete development guidelines, and Canadian Sport for Life principles</li> <li>Prioritize key training/factors/components, indicate training and developmental objectives, and provide appropriate sequencing of such factors/components/objectives with each period of the plan</li> </ul>   |  |  |
|  | ☐ Use NCCP or NSO sample yearly program template to correctly prioritize athletic abilities to be trained at a given time of the Yearly Training Plan   |  |  |
| NCCP   | ☐ Use NCCP or NSO sample yearly program template to identify training objectives (development-maintenance/acquisition-consolidation) for specific athletic abilities at a given time of the Yearly Training Plan  |  |  |
| Standard for   | □ Identify for a given week in the program:   |  |  |
| Core<br>Certification  | <ul> <li>The total number of practices and the duration of each practice, and<br/>use this information to determine the total training/practice time within<br/>the week</li> </ul>   |  |  |
|  | <ul> <li>Whether there is a gap between the "minimum training time required to<br/>induce specific training effects" and the "time available for training",<br/>using NCCP and/or NSO guidelines</li> </ul>   |  |  |
|  | <ul> <li>The organization and sequence training priorities on a weekly basis<br/>based on timing within Yearly Training Plan</li> </ul>   |  |  |
| Below<br>Standard  | <ul> <li>Do not use the NCCP or NSO sample yearly program template to correctly prioritize athletic abilities to be trained at a given time of the Yearly Training Plan</li> <li>Do not use the NCCP or NSO sample yearly program template to identify training objectives (development-maintenance / acquisition-consolidation) for specific athletic abilities at a given time of the Yearly Training Plan</li> </ul>   |  |  |

| Outcome: Design a Sport Program   |  |  |  |
|---|--|--|--|
| Criterion: Identify appropriate measures to promote athlete development |  |  |  |
| Achievement   | Evidence: Add Sport-specific Examples  |  |  |
|   | ☐ Meet "Above Standard" and:   |  |  |
| Highly<br>Effective   | <ul> <li>Identify systemic strategies or measures to offset critical program elements that are prevalent in the sport, and that show major inconsistencies with recommended guidelines on long-term athlete development available through the NCCP or the NSO</li> <li>The remedial measures or solutions developed are used as a model for other coaches of the Competition – Development context</li> </ul>  |  |  |
|   | ☐ Meet "Standard for Core Certification" and:  |  |  |
| Above<br>Standard   | <ul> <li>Determine if trends observed in own program are generalized with the sport</li> <li>Propose solutions that describe sound remedial or other corrective measures in order to (1) address specific weaknesses identified in individual athletes as a result of evaluations or other performance analyses and (2) ensure adequate progression in a way that is consistent with SPORT's long-term athlete development framework and/or generic NCCP guidelines and/or Canadian Sport for Life principles</li> </ul> |  |  |
|   | □ Calculate the ratio of training to competition opportunities within own program  |  |  |
| NCCP  | □ Compare the ratio of training to competition opportunities within own program to recommended NCCP or NSO norms pertaining to long-term athlete development   |  |  |
| Standard for Core Certification   | <ul> <li>Use data from performance analyses and normative data pertaining to expected performance standards at Competition – Development to identify whether training and competition opportunities of own program are adequate for athlete progression</li> <li>Identify major issues negatively impacting athlete progression within own yearly program, and present realistic solutions that (1) are consistent with NCCP / NSO long-term athlete development</li> </ul>  |  |  |
|   | norms / Canadian Sport for Life principles and (2) are adapted to the needs of Competition-<br>Development athletes  |  |  |
| Below<br>Standard   | <ul> <li>Do not calculate training to competition ratios</li> <li>Do not present appropriate strategies or solutions to assist in aligning training and competition ratios to NCCP or NSO long-term athlete development norms</li> </ul>   |  |  |
