## PURPOSE

- (1) As per Taekwondo Canada's (TC) by laws, it is the responsibility of TC and its Board of directors to determine TC's affiliation systems, condition and fees. This policy provides the framework for an individual or club/school to become affiliated with TC.
- (2) Taekwondo Canada is committed to working towards collaboration with affiliates, members, registered participants (RP) and partners to create a unified "Taekwondo in Canada" community. The strategic goal is to build a system where every person involved with Taekwondo in Canada is connected to the sport's governing body. With all participants in the sport having an affiliation connection, the sport as a whole will be in a stronger position.
- (3) More specifically, an integrated and seamless affiliation system that engages Taekwondo people all over the country will contribute to the achievement of excellence at the highest levels of the sport, will broaden participation in the sport, will enhance the capacity of clubs, schools, and provincial/territorial associations (PTA) across the country, and will increase interaction among all components of the system.
- (4) This policy is specifically in reference to the benefits of a Registered Participant (RP). This does not exclude participation by non-Canadians or non-Registered Participants if Taekwondo Canada chooses to designate an event or educational opportunity to meet its objectives in promoting Taekwondo Canada or its programs to the Taekwondo Community.

## OBJECTIVES

- (1) The objectives of this aligned affiliation system are to:
  - a) Harmonize categories of affiliation/registered participants across Canada and link them to the stages of long-term athlete development (LTAD).
  - b) Provide communication and interaction among Taekwondo Canada and all of its PTA partners.
  - c) Provide support for athlete and coach development systems within Taekwondo Canada
  - d) Assist all segments of the Taekwondo in Canada community in their marketing and promotion efforts by communicating and elevating the Taekwondo Canada brand.
  - e) Provide resources, programs and clinics for coach, instructor and officials' certification, thus ensuring affiliates have access to trained and qualified personnel.
  - f) Provide support to PSO and Clubs with best practices to better administer their memberships
