

Application of the WT Rules 2026

By Jocelyne Carriere, Canada Referee Chair

Purpose

This document outlines the amendment to the WT Competition Kyorugi Rules dated January 1st, 2026. These changes will take effect on June 1, 2026.

The document will be presented in 3 parts:

- A. Amendments effective June 2026
- B. Changes in the application of the rules for officials
- C. Rules implemented January 2026

A) Amendment WT Rules

Take effect on June 1st, 2026

POINT GAP - 15 POINTS

Hong	Chung
15	0

The point difference required to finish a round has been increased from 12 to 15 points to fit the new scoring structure.

This reflects the scoring value adjustment, as spinning head kicks increased from 5 to 6 points, necessitating the point gap adjustment to maintain competition balance.

DEFINITION OF CROSSING THE BOUNDARY LINE

A Gam-Jeom will now be given if **any part** of the foot crosses the boundary line, **not necessarily the whole foot**.

This adjustment ensures consistent referee decisions and prevents athletes from exploiting ambiguous boundary situations during competition.

RESPECT & DIGNITY : REDEFINING THE WINNER DECLARATION

Formal Commands Reinstated

At the end of the match, the referee will return the athletes to the center of the ring with the command of 'Chung, Hong', then command 'Cha-ryeot' (Attention) and 'Kyeong-rye' (bow) before announcing the winner of each match. Players can choose whether or not to remove their helmets for the bow.

The purpose is to highlight the Taekwondo philosophy of 'beginning and ending with respect'. It encourages good sportsmanship, showing mutual respect between contestants, regardless of the outcome.

New - Coaches Removed IVR for Head kicks

- Coach can not longer request IVR for Head Kicks that are not scored by PSS
- The center referee may still request video replay only after counting for a head kick which did not score. As before, the referee must see one or more of the following criteria in order to count :

New PSS Punch Scoring

A semi-automatic scoring method may be used for punch points. Punch sensors have been added to all PSS systems. When sensing gloves are employed, the impact of the punch will be detected by the PSS, and the correct technique shall be validated by the judge. (1)

New Referee's Team : Video Jury, Referee Center and Judge

- Due to the addition of PSS Punch detection, the role of the corner judge is more limited. Going forward, when PSS punching is in use, there will only be one corner judge, which has been renamed to technical judge.
- In the event of a woo-see-girok decision, the video jury joins the referee and the judge.

New Updated Technical Points + Divisions

1. Technical points (Turning kicks) are now double of their base score

Technique	Old Point Value	New Point Value
Turning Body Kick	4 points	4 points (Double Points)
Turning Head Kick	5 points	6 points (Double Points)

2. 6 Olympic weight divisions instead of 4 (To be tested in 2026)
